

DIRECTIONS OF USEAGE OF THE HUNGARORING CIRCUIT

INSTRUCTIONS FOR PARTICIPATING AT THE OPEN DAY FOR BIKES EVENT

MOTORSPORT IS DANGEROUS!

The Hungaroring circuit can only be used on one's own responsibility.
Only registered participants are allowed to enter the racetrack of the Hungaroring circuit.

Individuals wishing to participate in the event may register at **pit (garage) number 24**. All information regarding the event is available at this location. Participants must only use the circuit in their preliminary set group time (session) according to the schedule.

Hungaroring Sport Zrt. reserves the right to make changes in the schedule, should it become necessary.

During the registration process, participants have to present their valid driving licence or their valid rider's licence. The participant has to declare only to drive/operate a motor vehicle for which vehicle category he or she owns the legal right to do so.

Participants under the influence of alcohol or drugs must not enter the racetrack.

THE PARTICIPANT MUST WEAR PROPER PROTECTION EQUIPEMENT, WHICH INCLUDES A CRASH HELMET, MOTORCYCLE BOOTS, MOTORCYCLE GLOVES AND FULL MOTORCYCLE LEATHER CLOTHING.

Any diverse of the protection equipment written above (e.g. Cordura clothing) is NOT accepted for safety reasons. The clothing will be checked at the pit lane exit.

After the participation fee was paid, the participant will receive an identification sticker, which has to be mounted on the front of the motorbike. Participants also have to wear an armband supplied by the registration.

After the start of the group's session, the participants may enter the racetrack at the pit lane exit. The end of the current session will be indicated by showing a motionless red flag just before the Turns 6 & 7 (the slow chicane) and onwards. When this signal is given, the participants must reduce speed and ride back to the pit lane at the end of that lap.

Participants have to vacate the Hungaroring circuit at the latest of 30 minutes after the end of the event. Pre-purchased registration fees can only be re-exchanged up to 10 minutes before the start of the session.

Only vehicles in technically perfect condition will be allowed to enter the racetrack.

By a technically perfect condition, it is meant among other factors:

- an operating braking system

- technically perfect tyres
- an exhaust system which respects the noise limitations of the Hungaroring circuit

The technical status of the vehicle must ensure correct operability and must provide roadworthiness. Hungaroring Sport Zrt. reserves the right to exclude vehicles which are not fulfilling the requirements above.

The instructions of the organizers and the marshals must be respected at all times.

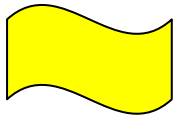

Failing to obey the instructions of the organizers, the marshals or the flag signals (described towards the end of this document), intentionally causing an accident or damaging another vehicle will result in an immediate exclusion from the event, and also possible compensation claims.

The participant must take notice of the fact that he or she is personally responsible for any kind of damage caused on the racetrack, in the Hungaroring circuit or in any facility of the Hungaroring circuit.

For the safety of the participants, please take the following safety principles into account:

- Traffic is one-way, traffic direction is clockwise. The whole width of the racetrack can be used for riding. Overtaking is allowed from both sides.
- Several bikes are using the racetrack at the same time. Please watch very carefully for slower vehicles. The sessions are not for racing purposes.
- Do not zigzag, weave or do unpredictable steering manoeuvres. Avoid the so called outbraking manoeuvres before turns.
- Never stop on the racetrack! In case of a technical problem, try to reach the pit lane. If that is unmanageable, leave the racetrack at a guardrail opening designated by orange paint. If that is not possible, stand the bike as far from the track as you can, jump over the guardrail and wait for assistance.
- If you must leave your bike behind, always look for incoming traffic whenever possible. Never show your back to incoming vehicles.
- Speed limit in the pit lane is 60 km per hour. Traffic is one-way at all times.
- Do not stand your bike in the inner (fast) lane of the pit lane. Use the right side to stop.
- Only enter the racetrack when the pit exit green light is illuminated or the blue light is flashing.
- Entering the racetrack, do not disturb the vehicles already on the starting straight.
- Run-off areas must not be used for overtaking or gaining advantage. Do not cut the turns. If you are forced to leave the track, always watch for traffic and return very cautiously.
- Accidents on the racetrack are not regarded according to rule (code) of the road. Contacts between bikes are regarded as usual racing accidents at almost all times. We kindly advise you to effect a complementary insurance.

The following flag signals must be respected and obeyed (if applicable) at all times for safety reasons:

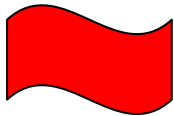

YELLOW FLAG: DANGER AHEAD, OVERTAKING FORBIDDEN

Slow down and even prepare to stop. Overtaking is forbidden up to the point where the green flag is shown.

GREEN FLAG: TRACK IS CLEAR AND FREE OF HAZARDS

RED FLAG AND RED LIGHTS: SESSION INTERRUPTED

Slow down and return to the pit lane at the end of this lap.

YELLOW FLAG WITH RED STRIPES: DETERIORATION OF GRIP

Ride with caution. The surface of the track might be slippery (oil, dust etc.)

BLACK FLAG WITH ORANGE DISK: LEAVE THE TRACK IMMEDIATELY!

Leave the track, stand the bike and move behind the guardrail!

Thank you for your cooperation.
We wish you a pleasant motor biking experience!

Hungaroring Sport Zrt.
